MISSION:

Since 1991, Hyperlite Wake has been at the forefront of wakeboarding, wakesurfing, and wakefoiling, fueling a lifestyle fueled by passion and adventure. Our commitment is to deliver innovative, durable, and high-performance equipment that elevates every experience on the water—whether you're pushing limits or relaxing on a sunny day.

As the longest-standing brand in wake, we embrace the evolution of the sport, including the exciting world of wakefoiling. Our expanded foil program, featuring the new Starship board and versatile wings, exemplifies our dedication to growth and innovation.

Our 2026 lineup—crafted with input from pros and enthusiasts—includes top-tier wakeboards, wakesurfers, and bindings designed for comfort and durability. From classic shapes to crossover styles, our products cater to all skill levels and ages.

At Hyperlite Wake, we believe in enduring quality and timeless innovation. We look forward to seeing you on the water, enjoying the best we have to offer and making every ride unforgettable.

WAKEBOARD COLLECTION:

For the dedicated boat rider, Hyperlite's Loaded Construction delivers the ultimate ride—responsive, lightweight, and built to withstand the demands of pushing limits. In 2026, we've enhanced durability by integrating carbon rods within our proprietary core material, resulting in the most responsive and resilient wakeboards yet, featuring full carbon construction.

Introducing the limited edition Murray Loaded and the freshly shaped Rage Wakeboard, available in both Loaded and Bio constructions, designed specifically for optimal performance behind the boat. Whether you're chasing your next big trick or enjoying a relaxed day on the water, Hyperlite's Wakeboard line is built to elevate your riding experience.

NEW FOR 2026

RAGE LOADED

LATEST LOADED WAKEBOARD IS ALL THE RAGE

Introducing the NEW Rage Loaded Wakeboard, available in three sizes. This lightweight Hyperlite board features Hyperlite's new Loaded Construction for enhanced performance featuring our PVC 100 Core, 12K Carbon Stringers, and 3mm rods running tip to tail. The three-stage rocker provides excellent pop off the wake, while the dual concave with a soft center spine offers stability and smooth landings.

SIZES: 139cm, 142cm, 144cm

FINS: .7" SS Beam (4)

CONSTRUCTION FEATURES:

- NEW Loaded Construction
 - + 12K Carbon Stringer – Top & Base
 - + Lightweight PVC 100 Core
 - + 2 x 3mm Solid Fiberglass Rods
- 3-Stage Rocker

BLUEPRINT

TREVER MAUR
SIGNATURE WAKEBOARD

Trever's Blueprint offers wakeboarders a soulful ride, breaking free in the flats and delivering huge pop off the wake. Its deep spine breaks up water, making it the "softest landing board ever," so riders can concentrate on tricks instead of landing precision. Scooped tip and tail shapes enhance the pop, ensuring you feel stoked every time you hit the wake. The Blueprint elevates your riding experience, providing a fun, playful, and freeing session!

SIZES: 138cm, 143cm, 147cm

FINS: .7" Blueprint (4)

CONSTRUCTION FEATURES:

- Biolite 3 Core
- Continuous Rocker
- Variable Edge Design

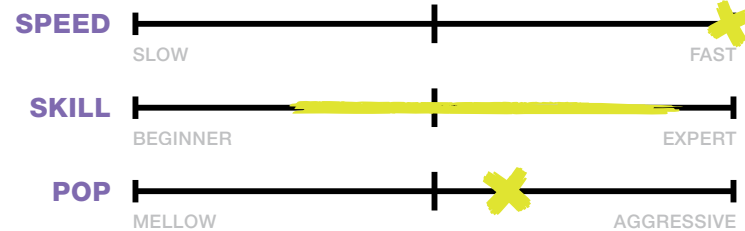

PART NUMBERS:

- 138 Blueprint — #26200030 (NEW SIZE)
- 143 Blueprint — #26200031
- 147 Blueprint — #26200032

PACKAGE OPTIONS:

- Blueprint w/ Goopy Boot
- Blueprint w/ Team X Binding
- Blueprint w/ Team OT Binding

NOTES:

KRUZR

RUSTY MALINOSKI
SIGNATURE WAKEBOARD

Benefiting the Grayson Lawrence Stumpf Foundation - Live Gray's Way

The KRUZR-GLS is a shape from Hyperlite's head of R&D Aaron Stumpf and Rusty Malinoski. With more surface area than any other board, it's designed to be a nimble cruiser with a minimum thickness profile and added comfort. Aaron added the Boneline Grab Rail and Cupped Tail Rail for better edge hold, plus a Molded Landing Feature for soft landings. Rusty sees this as a shape all riders can enjoy—especially those 200+ lbs—while still delivering the pop and power he's known for.

SIZES: 150cm, 154cm

FINS: .7" SS Beam (4)

CONSTRUCTION FEATURES:

- Biolite 3 Core
- Abrupt Continuous Rocker
- Variable Edge Design

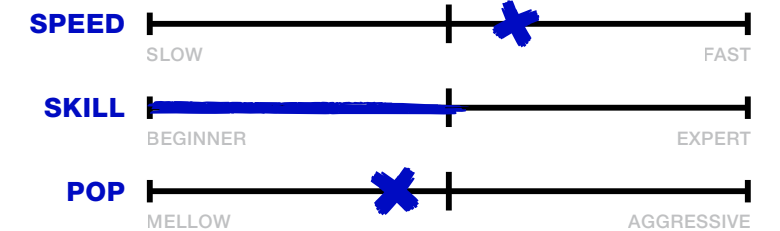

PART NUMBERS:

- 150 KruZR — #25200040
- 154 KruZR — #25200041

PACKAGE OPTIONS:

- KruZR w/ Team X Binding
- KruZR w/ Team OT Binding

NOTES:

LIMITED EDITION

MURRAY PRO LOADED

SHAUN MURRAY SIGNATURE WAKEBOARD - 30TH ANNIVERSARY

Hyperlite introduces the first-ever Shaun Murray Pro wakeboard with Loaded Construction, combining a lightweight design with enhanced rebound for all skill levels. This award-winning shape features a subtle 3-stage rocker for powerful boosts and Variable Edge Design for solid hold and soft landings, making tricks easier. With a fresh graphic look, the limited edition Murray Loaded is not only a collector's item but also the best-riding Murray Pro to date!

SIZES: 139cm, 144cm

FINS: .8" P-Wing (4)

CONSTRUCTION FEATURES:

- Loaded Construction
- 3K Carbon Top & Base
- Subtle 3-Stage Rocker

NEW LOOK FOR 2026

MURRAY PRO

SHAUN MURRAY SIGNATURE WAKEBOARD

The Murray Pro features a Subtle 3-Stage Rocker without a flat spot, providing a colossal boost off the wake. Maintaining past designs, it includes Variable Edge Design and Molded Landing Features for all skill levels. The board's edge is rounded between the inserts, sharpening underfoot for solid edge hold and forgiveness at the tip and tail. With Hyperlite's Biolite 3 Core and compression molded construction, the Murray remains super light for easy spins, flips, and full sends.

SIZES: 134cm, 139cm, 144cm, 150cm

FINS: .8" P-Wing (4)

CONSTRUCTION FEATURES:

- Biolite 3 Core
- Subtle 3-Stage Rocker
- Variable Edge Design

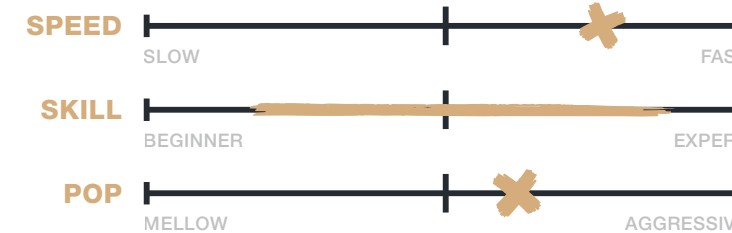

PART NUMBERS:

- 134 Murray Pro — #26200040
- 139 Murray Pro — #26200041

- Sender w/ Formula Binding
- Sender w/ Remix Binding

NOTES:

NEW LOOK FOR 2026

STATE 2.0 & STATE JR.

ASYMMETRICAL ALL ABILITY LEVEL SHAPE

The State 2.0 & State Junior enhance rider skills with its asymmetrical shape, making toe-side edging easier. A shorter toe-side edge improves control when edging into the wake or transitioning to heel-side. Each binding features a Molded-In riser for better leverage and control. As Hyperlite's bestselling beginner board, it offers smooth edge-to-edge transitions, molded fins, and a clean release off the wake. Riders will also enjoy a solid pop off the wake, thanks to the Abrupt Continuous Rocker.

SIZES: 125cm (Junior), 130cm, 135cm, 140cm, 145cm

FINS: 1.3" Disorder (2)

CONSTRUCTION FEATURES:

- Biolite 3 core
- Abrupt Continuous Rocker
- Asymmetrical Design

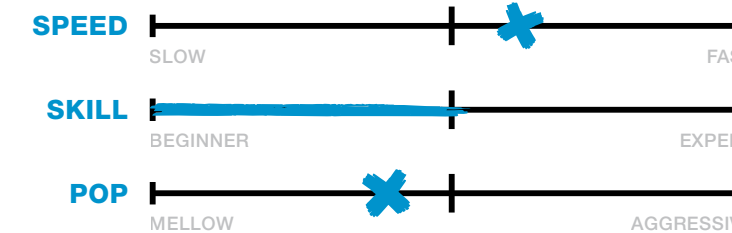

PART NUMBERS:

- 125 State Jr. — #26200045
- 130 State 2.0 — #26200046
- 135 State 2.0 — #26200047
- 140 State 2.0 — #26200048
- 145 State 2.0 — #26200049

PACKAGE OPTIONS:

- State 2.0 w/ Formula Binding
- State 2.0 w/ Remix Binding
- State Jr. w/ Remix Kids

NOTES:

JOURNEY

BEK GANGE
SIGNATURE WAKEBOARD

Bec Gange loves her new pro model shape that perfectly suits her amazing wakeboarding journey. The Journey features a 3-Stage Rocker for excellent pop off any size wake. An aggressive edge approach is provided by cupped rails at tip and tail. The ride is forgiving, with a beveled edge between the bindings and cushy landings thanks to the Soft Landing Spine. Satin Flex offers a flex pattern that female riders love, and the Journey comes in 3 sizes for both groms and adults.

SIZES: 132cm, 136cm, 140cm

FINS: .8" P-Wing (4)

CONSTRUCTION FEATURES:

- Biolite 3 Core
- 3-Stage Rocker
- Satin Flex

- 132 Journey — #25200085
- 136 Journey — #25200086
- 140 Journey — #25200087

PACKAGE OPTIONS:

- Journey w/ Syn Binding
- Journey w/ Viva Binding

NOTES:

PRIZM

SHAUN MURRAY INSPIRED
LADIES WAKEBOARD

The Prizm shares the shape of the Murray Pro wakeboard & features our lady-specific Satin Flex, ensuring it responds well to female riders. It utilizes a Subtle 3-Stage Rocker with no flat spot, increasing underfoot for a huge boost off the wake. The rounded edges between the inserts sharpen underfoot and cup at the tip and tail, providing solid edge hold and necessary forgiveness. The Prizm is a favorite among our team, so try one today and "Enjoy Your Ride," as Shaun says!

SIZES: 134cm, 139cm

FINS: 8" P-Wing (4)

CONSTRUCTION FEATURES:

- Biolite 3 Core
- Subtle 3-Stage Rocker
- Satin Flex

CABLE COLLECTION:

CABLE COLLECTIVE:

At the wakepark, trust Hyperlite's cable boards to deliver top performance and withstand the rigors imposed by the world's best riders. The Guara by Pedro Caldas showcases our innovative Bio-Resin formula, a groundbreaking environmentally friendly technology. Most of our cable board lineup features a lightweight, responsive core made from 100% sustainable paulownia wood, ensuring quick response and durability.

Additionally, we're excited to introduce the new Impulse board—designed as an everyday cable deck that offers exceptional value and performance for riders of all skill levels. With Hyperlite, you get reliable, sustainable, and high-performance gear built to elevate your wakepark experience.

CABLE FLEX FACTOR:

On a scale of 1 to 5, our Flex Factor 1 indicates a standard flex while slightly softening with Flex Factors 2 through 5. Flex Factors 4 & 5 mark our softest most flexy shapes ideal for pressing on features.

CABLE COLLECTION BY FLEX FACTOR:

- Impulse - 5
- Bloodline - 4
- Pleasure - 5
- ATV - 2
- Freepress - 5
- Union - 2
- Aries - 5
- TNT - 2
- Guara - 4

NEW LOOK FOR 2026

GUARA

PEDRO CALDAS SIGNATURE
CABLE WAKEBOARD

Pedro Caldas is making waves in wake parks worldwide and competing at top levels. The Guara features Hyperlite's BIO-RESIN System, aligning with Pedro's desire for sustainable construction. This eco-friendly board combines bio-resin with Hyperlite's Woodlite Core and sustainable Paulownia trees. The Guara offers speed on edge and during landings, with a stiffer flex pattern for air tricks. Pedro's loving this cable board and you will too.

BLOODLINE

LIAM & RYAN PEACOCK
SIGNATURE CABLE WAKEBOARD

Ryan & Liam Peacock are digging their Bloodline Pro Model. The Bloodline has a thinner profile making landings super easy and the thickness provides enough rigidity so soft landings are still solid. Grab Rails running the length of the stance area deliver a controlled flex between your feet and allow the tip and tail to flex a bit more flex for presses. The abrupt continuous rocker provides a fast board on the water and adds to that exquisite flex pattern sought by the Peacock Bros.

SIZES: 147cm, 151cm, 155cm

FINS: Finless

NOTES:

FREEPRESS BOOT

JB O'NEILL
SIGNATURE FOOTWEAR

JB O'Neill prefers the System Binding for cable shredding, leading to the creation of his Freepress System Boot which is a more supportive boot with the right flex for all athletes. With the tallest cuff in the System lineup, the Freepress provides greater support up to mid-calf and a midrange motion for precise board response. Internal ankle harness lacing minimizes heel lift for a secure fit, while articulation zones allow forward flexion for grabs and essential mobility.

SIZES: 6, 7, 8, 9, 10, 11, 12, 13

CONSTRUCTION FEATURES:

- Fully Lasted Fit
- Thermo Formed Tongue
- 3D Heat Moldable Pro Liner

**Remember the System Boot is designed to work exclusively with our System Binding. Both components are needed for use.*

PART NUMBERS:

- Freepress Boot 7 — #25391103
- Freepress Boot 8 — #25391104
- Freepress Boot 9 — #25391105
- Freepress Boot 10 — #25391106
- Freepress Boot 11 — #25391107
- Freepress Boot 12 — #25391108
- Freepress Boot 13 — #25391109

NOTES:

GOOEY BOOT

TREVER MAUR
SIGNATURE FOOTWEAR

Trevor Maur's riding style is like no other, his freeride & freestyle look requires the most flexible boot in the System line. Grab the Goopy Boot and tweak it to the max on the cable or behind the boat.

SIZES: 6, 7, 8, 9, 10, 11, 12

CONSTRUCTION FEATURES:

- Outsole Stitched to Boot Heel
- Thermo Formed Tongue
- 3D Heat Moldable Pro Liner

PART NUMBERS:

- Goopy Boot 6 — #24391303
- Goopy Boot 7 — #24391304
- Goopy Boot 8 — #24391305
- Goopy Boot 9 — #24391306

Ø-G FOOTWEAR PLATFORM

Over the past 3 years Hyperlite engineers have been grinding to revolutionize the traditional plated wakeboard binding. We're introducing 3 new binding models built atop our new Ø-g Footwear Platform: ZER02, ARC & MID, each with different support and flex characteristics. Ø-g Bindings utilize ultra lightweight construction, feels like Nothing! Constructed around our newly designed INVISILAST™ with 2-Phase Lasting process, nothing has ever been this comfortable. Genuine Ultralon Foam liners are factory heat molded and ready for custom fit at your local retailer. Step into the most comfortable binding ever created.

- 
Ø-G FOOTWEAR PLATFORM
 Revolutionary Base Plate Design - Efficient Energy Transfer between Wake Rider & Board.
- 
ULTRA LIGHTWEIGHT CONSTRUCTION
 Ultralight Material Selection - Feels Like Nothing on your Feet while Wakeboarding for a Fresh Riding Experience.
- 
VARIABLE 3D FLEX
 Engineered for specific flex characteristics in targeted zones for heightened performance.
- 
UNMATCHED RESPONSE & CONTROL
 Ride Like Never Before - Instant control and transition between toe and heel edging for effortless function & feel.

- 
LASTED ULTRALON LINER
 Pre-molded around last & ready to personalize with customized heat molding for maximum fit & performance.
- 
INTEGRATED INTERNAL CORE
 Ø-g Platform Core interconnected with lower lace zone creates desired support where needed.
- 
TRUE TIGHT LACE LOCK & DOCK (TT)
 Simplified & secure lace lock mechanism with tether for elegant storage.
- 
INDUSTRY STANDARD MOUNTING
 ZER02 Binding pairs with all wakeboards on the market utilizing M6 hardware for secure mounting.

ZER02 BINDING

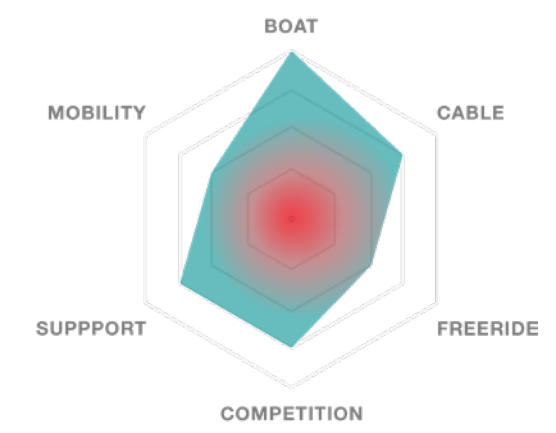

THE GAME CHANGER - INDUSTRY'S LIGHTEST BINDING - MAXIMUM SUPPORT, RESPONSE & COMFORT

We built the ZER02 Binding from the ground up utilizing cutting-edge materials and technology. From our meticulously crafted Invisilast™ to the supercharged epX-Base, every detail about the 0-g™ Platform was carefully considered. The ZER02 Binding delivers fine-tuned comfort and support that is constructed to maximize energy transfer and response. Refined performance, Zero compromise.

CUFF HEIGHT: Tall Cuff Height
SIZES: 6/7, 8, 9, 10, 11, 12, 13/14

NOTES:

NEW FOR 2026

MID BINDING

LIGHTEST BINDING ON THE MARKET - UNMATCHED FREEDOM & MOBILITY

The MID Binding is designed for exceptional performance and comfort, utilizing innovative materials like Invisilast™ and epx-Base to enhance energy transfer between rider and board. Every detail about the 0-g™ Platform was carefully considered. Its lightweight, low cuff height promotes mobility, making it perfect for tweaking tricks in the park and accommodating freeride and freestyle athletes behind the boat. With meticulous attention to detail, the MID Binding offers refined sense of freedom for all riders.

CUFF HEIGHT: Lower Cuff Height

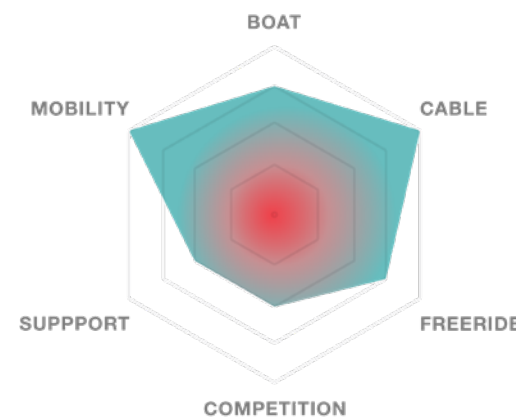

SIZES: 6/7, 8, 9, 10, 11, 12, 13/14

CONSTRUCTION FEATURES:

- 0-G Footwear Platform - Ultra Lightweight Construction
- Instantly Transfers Energy Directly to and From Board
- Ultimate Freedom and Mobility

Stratos

EXPERIENCE FLIGHT—EMBRACE FREEDOM.

The large board design makes starting easy, allowing riders to begin from a standing position rather than lying down. This feature is ideal for beginners, offering stability and confidence right from the start.

A forward battery placement ensures balanced weight distribution, providing a smooth, progressive lift that's perfect for new riders. It also enables a more natural foil stance, positioning you directly above the foil for better control and a ride that feels closer to surf foiling than traditional e-foils. Safety is a top priority with the magnetic kill switch, a key feature that significantly reduces the risk of harm to the rider. The board is fully compatible with all Hyperlite front foil wings, giving you the flexibility to customize your ride. Crafted with a premium carbon board and aluminum prop, it's built for performance and durability.

Assembly is quick and hassle-free. Simply plug in the battery, attach the foil kit with M8 fasteners, and you're ready to hit the water—no extra cables or wires needed.

COMING SOON!

STRATOS EFOIL

EXPERIENCE FLIGHT,
EMBRACE FREEDOM

Experience flight and embrace freedom with the Hyperlite Stratos. Designed from the water up to welcome beginners while delivering performance for seasoned riders, the Stratos features a large 5'10" carbon board that allows you to start standing, not kneeling. With 135 liters of volume and smart weight distribution, it lifts smoothly and lets you ride with confidence right out of the gate.

SIZE: 5.10

CONSTRUCTION FEATURES:

- Plug-and-Play Setup – No messy wires, ride-ready out of the box
- 5'10" Carbon Board – Stable, durable, and easy to control
- 135-Liter Volume – Stand from the start, no need to kneel
- Battery Forward Design – Smooth lift & natural surf-style stance
- MagniLeash – Magnetic kill switch for rider safety
- 90-Minute Ride Time – Plenty of flight before recharge
- 1 Hour 45-Minute Charge – Quick turnaround between sessions
- Compatible with All Hyperlite Front Wings – Customize your ride
- Aluminum Propeller – Built for reliable performance
- Foil Kit Includes Falcon 1500 Front / 412 Rear Wing

WHAT'S INCLUDED:

- Hyperlite Stratos Board (with built-in carry handle)
- Wheelie Board Bag for easy transport
- Full-Range Battery + Charger
- Battery Travel Bag
- Complete Foil Kit (Falcon 1500 / 412) + Travel Bag
- Hand Controller for precision control
- MagniLeash Magnetic Kill Switch

PART NUMBERS:

- Stratos Board 5.10 w/Foil — #25400110
- Stratos Battery 2.1 — #25400112

2026 FOIL COLLECTION

Enjoy up to 90 minutes of ride time, tailored to your skill level.

Recharge in just 1 hour and 45 minutes for more fun on the water.

Crafted with premium carbon fiber for unmatched durability and performance.

5 Feet 10 inches length – Perfectly sized for effortless control and maximum performance.

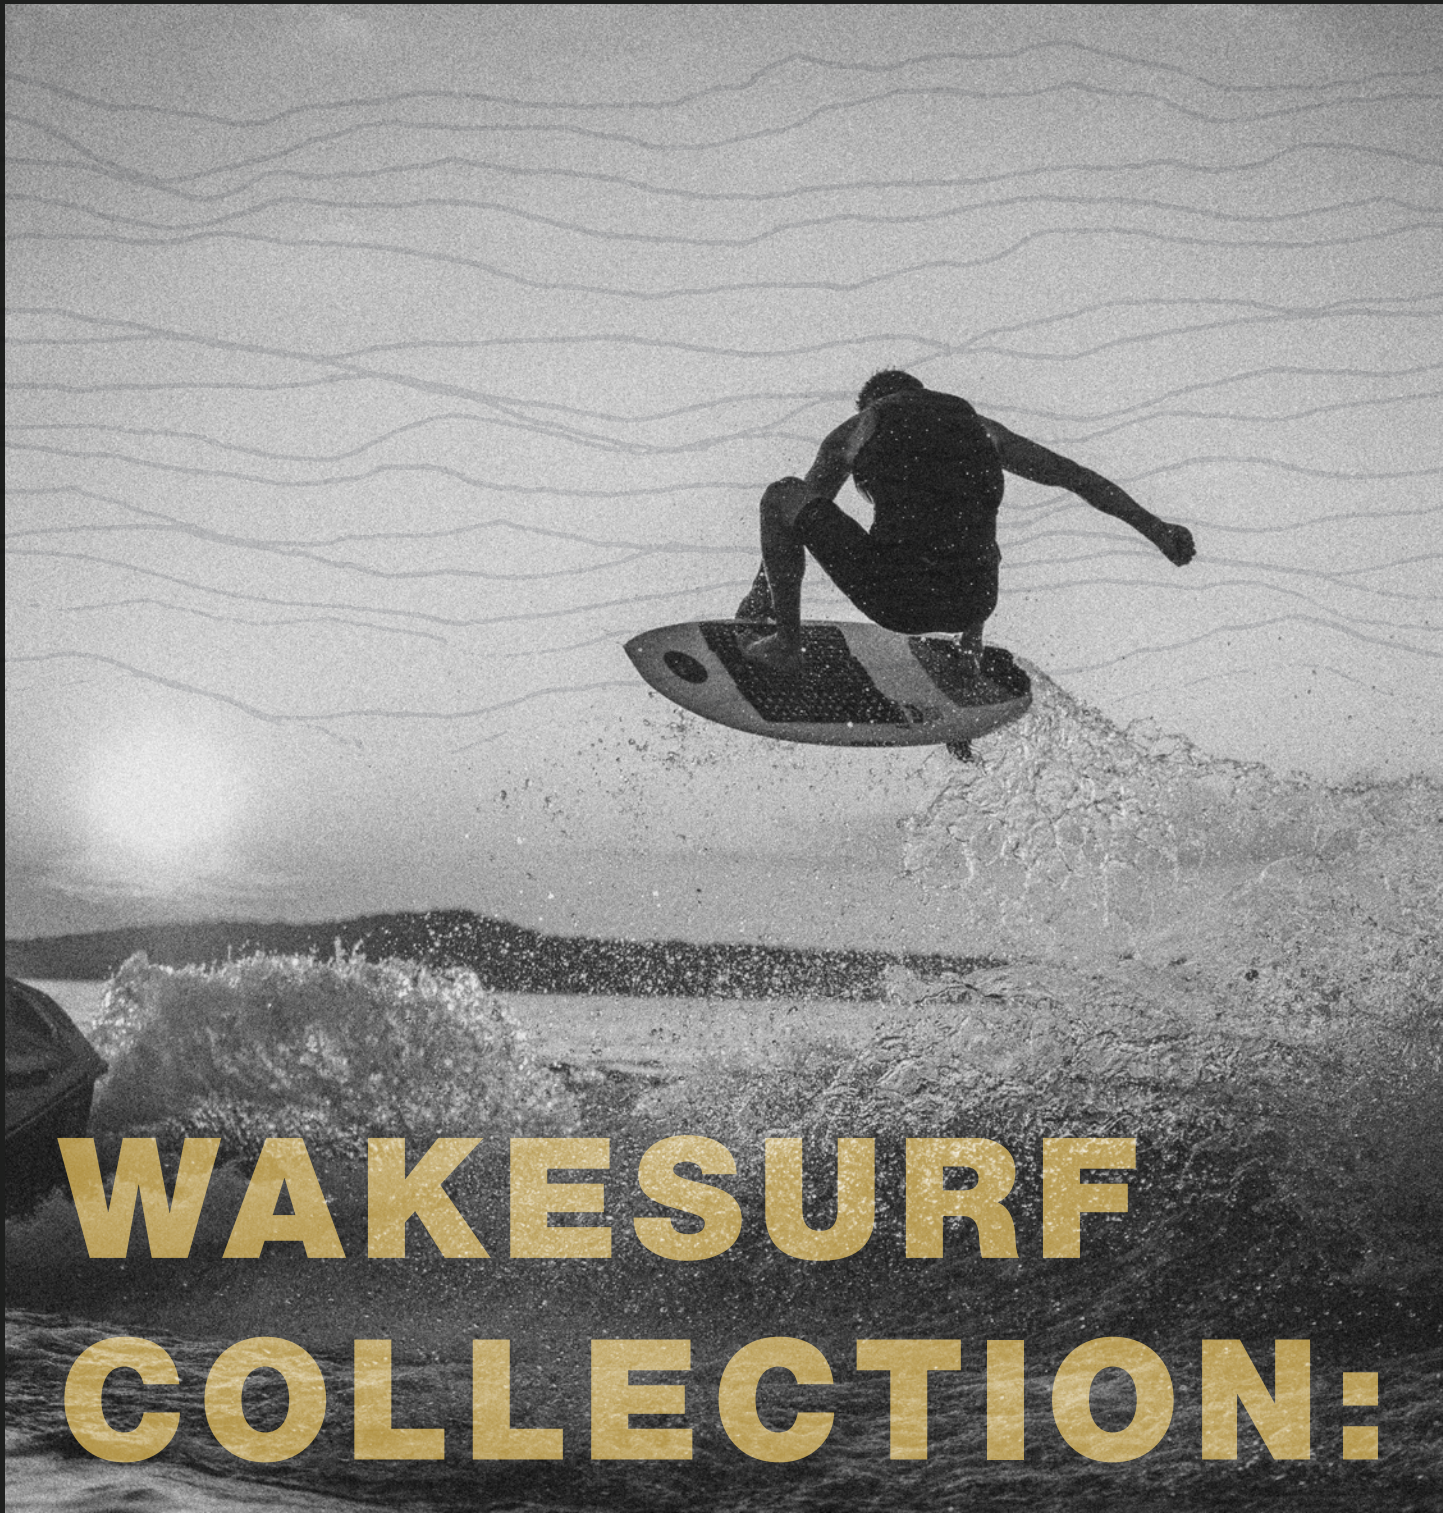

MagniLeash – Exclusive Hyperlite technology—a Magnetic leash with a kill switch for enhanced safety.

Weighing under 180 lbs - You can stand and ride right away—no need to start on your knees. 5'10" in length for optimal performance.

135-Liter Board – The most user-friendly e-foil on the market.

Battery is positioned further forward enabling a more natural surf-style stance without forcing your toes to the front nose of the board.

Plug-and-play setup – no messy wires, just unbox and ride. Ready to use instantly!

WAKESURF COLLECTION:

Wakesurfing remains a favorite for many, and Hyperlite is proud to offer five hand-glassed shapes, including the new Joey Harris Pro Model MOAB, alongside fan favorites like the Accelerator, Darkstar, Frother 2.0, and the new SHIFT skim-style surfer. Hyperlite's Durashell Construction can be found on the Storm by Jodi Grassman and Smokewagon using carbon laminates. The Time

Machine and new Buzzmatic surf style boards also feature Durashell with fiberglass laminates and all utilize our lightweight EPS Core. These boards deliver high performance ride characteristics, durability and a great time behind the boat. No matter the wave size or style, Hyperlite offers wakesurfers designed to keep you riding all day long with excitement and confidence.

NEW FOR 2026

MOAB

JOEY HARRIS
SIGNATURE WAKESURFER

Introducing the NEW MOAB Wakesurfer—the Joey Harris Pro Model—crafted with durable epoxy EPS wood and stringer construction for a premium ride. A deep concave provides drive and control, while reverse tail channels boost speed and loosen the tail for agile maneuvering. The large grab rail ensures easy handling, and the true surf-style design delivers a skate-like feel, fast rail-to-rail transitions, and solid pop for aerials. Responsive and fun, it's built for style, flow, and performance.

SIZES: 4.6, 4.9, 5.0

FINS:

- Carbon & Fiberglass Custom MOAB Fins: + 4.5" Front Fins (2) & 1.7" Drop Fins (2)

TRACTION

- Machined EVA Corduroy w/ Kick Tail

CONSTRUCTION FEATURES:

- Handcrafted Epoxy Construction
- EPS Core
- Wood Stringer

VOLUME (L):

- 4'6" = 23.5 L
- 4'9" = 25.14 L
- 5'0" = 28.0 L

ACCELERATOR

HAND-CRAFTED
WAKESURF SHREDDER

The Accelerator is a modern take on a classic board design, known for its reliability over the years. This high-performance twin fin board excels in and out of turns, thanks to its wide swallow tail that makes boosting above the lip effortless. Featuring double wings on each rail, the Accelerator provides added grip, ensuring stability in the twin fin setup.

SIZES: 4.4, 4.8

FINS:

- Carbon & Fiberglass Custom Accelerator Fins—4.5" (2)

TRACTION

- Machined EVA Corduroy w/ Kick Tail

CONSTRUCTION FEATURES:

- Futures Fin Boxes
- Dual Deck Reinforcement
- 100% UV Resistant

- 4'4" = 19.74 L
- 4'8" = 24.71 L

PART NUMBERS:

- 4.4 Accelerator — #26300115
- 4.8 Accelerator — #26300116

NOTES:

FROTHER 2.0

TRUE TWIN FIN FOR DRIVE,
SPEED & LOFTY MANEUVERS

Hyperlite's Frother 2.0 wakesurfer returns by popular demand, featuring our handmade epoxy construction. This twin fin design & wide rocket tail delivers extra speed and drive for explosive turns and airs in the wake. Riders can enjoy a loose feel thanks to the unique tail rocker, which combines the float of wide tail shapes with the responsiveness of sharp rails. The lively epoxy construction enhances maneuverability & speeds down the line to stay in the wave.

SIZES: 4.6, 4.8, 5.0

FINS:

- Carbon & Fiberglass Custom Frother Fins—4.5" (2)

TRACTION

- Machined EVA Corduroy w/ Kick Tail

CONSTRUCTION FEATURES:

- Handmade Epoxy Construction
- EPS Core w/Wood Stringer

- 4.8 Frother 2.0 — #24350173
- 5.0 Frother 2.0 — #24350174

NOTES:

DARKSTAR

FASTEST SURF SHAPE EVER —
ACCELERATES THROUGH TURNS

The Darkstar breaks the mold of traditional surf style shapes. A slightly narrower profile and V bottom shape delivers speedy edge to edge transitions while driving the board through turns. Imagine the boost of the wake you'll achieve as the Darkstar gains momentum through the bottom turn up to the lip. A diamond shaped tip & tail also deliver a clean water release aiding the Darkstar's pace. Ideal for intermediate to advanced surfers looking to up their game in the wave.

SIZES: 4.6, 4.8, 4.10

FINS:

- Carbon & Fiberglass Custom Darkstar Fins:
+ 4.5" Front Fins (2) & 1.7" Drop Fins (2)

TRACTION

- Machined EVA Corduroy w/ Kick Tail
