DECKVEST VITO AFS

OFFSHORE LIFEJACKET HARNESS

THE CATEGORY-DEFINING VITO IS UPDATED FOR 2026

Building on several years of research into buoyancy performance, the updated VITO features a new revolutionary integrated flotation construction.

The AFS (Advanced Flotation System) puts the buoyancy of the inflated jacket where it functions best - giving enhanced rotation, freeboard and most importantly stability in the water. The low-profile gives users a much higher level of moveability both in and out of the water - essential in a rescue situation and for self-help.

The AFS internal inflation chamber takes the form of the sewn outer construction of the jacket. This allows the chamber to be sewn in a truly 3D form that is held close to the body, forming a profile that maximises the in-water performance, yet minimises bulk.

The inflated product is smaller, lighter and softer than traditional 2D welded bladders, yet enhances performance in all the required measures.

The construction of the chamber also allows for an improved use of highly visible colours. The contrasting spectrum of hi-vis pink with hi-vis yellow has been proven to enhance visibility at distance in challenging conditions, over the use of a single hi-vis colour.

Internal updates include an improved structured sprayhood, along with new integrated attachment points for beacons, giving better accessibility and usability of these key components.

The Hydrostatic Hammar® inflator is protected on the back of the jacket, reducing the risk of snagging and damage whilst being worn and in-use.

The softer more flexible internal construction of the AFS further enhances the fit and wearability of the jacket for daily use, whilst the improved single point adjustment gives a quick secure fit, simplifying the fitting.

The Harness Release System (HRS), a vital safety feature for the harness is now standard on every VITO, as are the exclusive Lume-On and Pylon lights that significantly aid location in the dark.

**"REVOLUTIONISING RISK:
DECKVEST VITO AFS SETS UNMATCHED
SAFETY STANDARD"**

DECKVEST VITO AFS

OFFSHORE LIFEJACKET HARNESS WITH HARNESS RELEASE SYSTEM

FEATURES

170N buoyancy

Striking design finish in durable rip stop fabric

Hammar® hydrostatic automatic inflation system

The AFS (Advanced Flotation System) puts the buoyancy of the inflated jacket where it functions best – giving enhanced rotation, freeboard and very importantly stability in the water

Very low profile bladder shape for increased manoeuvrability in water

Smaller, lighter and softer than traditional 2D welded lifejackets

Fitted with Harness Release System (HRS™)

PLB fitting approved

Pylon Lifejacket Light™ fitted

Lume-On™ lifejacket bladder illumination lights fitted

The combined use of highly visible colours, hi-vis pink with hi-vis yellow has been proven to enhance visibility at distance in challenging conditions

Structured fit allows easy donning with simple to adjust buckles

Fine tune adjust each time for layers of clothing

Structured sprayhood to reduce the risk of secondary drowning fitted

Wider 40mm leg strap with stowage

Toggle attachment point for optional Chest Pack (DW-PCC)

Model	Description
DW-VT2/H170	Deckvest VITO 170N Lifejacket Harness

Approvals
CE Approved
ISO 12402-3 Lifejacket (170N)
ISO 12401 Deck Harness
Pylon Light ISO 12402-8
Sprayhood ISO 12402-8

Optional Fitting	
DW-MOB/2-F	Ocean Signal MOB2 AIS Beacon Unit Fitted
DW-PLB/3-F	Ocean Signal PLB3 AIS Personal Locator Beacon
DW-PCC-F	Chest Pack Fitted
DW-CTR	Safety Line Cutter and Stowage Pouch

Information
One Size
Chest measurement: 80-145cm
Product Weight: 1.24kg (2lb 12oz)

RIG-SENSE PRO

ACCURATE LOAD MEASUREMENT FOR ROD AND WIRE RIGGING

FEATURES

Developed at the request of Selden Mast, Rig Sense Pro joins the massively successful Rig-Sense range where we find an increasing number of professional users, measuring and recording loads.

Increasingly, professional users are needing to demonstrate that rigging has been installed to a determined load and then recorded and certified. This is often for insurance purposes.

Masts and rigging need to be installed, commissioned and checked to a set of precise loads, both Rod and Wire. Over the lifetime of the mast and rigging continual checking and referencing to these defined loads is also required.

Rig-Sense Pro provides accurate measurement of Ø5-20mm Cable, Ø5-16mm Rod upto 6000kg max Tension

Handheld, simple to operate with a clear digital display, Rig-Sense Pro offers OEM's, Riggers, Spar Manufacturers and industrial installers an easy to use tool for accurately recording the load data. Interfacing with a comprehensive Rig-Sense App the data is collected and stored for report writing later.

Model	Description
RGS-PRO/0520	Rig Sense Pro
Product Weight	
2.65kg	

RIG-SENSE PRO

ACCURATE LOAD MEASUREMENT FOR ROD AND WIRE RIGGING

DETAILS

Wide Range

Ø5-20mm cable
Ø5-16mm rod
6000kg max tension

Easy Cable Size Adjustment-

Push and slide
Select setting shown on display

High Contrast Read-Out

Stores multiple cable calibrations
Navigate to desired cable for adjustment setting

Operation

Select cable type on display
Adjust to sliding deflector required setting
Unlock handle
Lift handle fully
Hook lower sheave on cable
Hook upper sheave on cable
Close handle
Adjust cable to desired tension
Select from multiple units and % of breaking strain

Auto Close Gate

Remains attached to cable even if cable goes slack
Additional lanyard (not shown) to grip cable and prevent falling

Handle Lock

Operated from lower handle
Prevents unsafe one-handed removal
Allows carrying from central handle

High Accuracy Measurements

Small cable deflection to minimize tightening effect from bending
Cable adjuster increases leverage for smaller cables for increased sensitivity
Stainless steel deflector sheaves for low wear
Robust marine construction
Aluminium plate structure
316 stainless pins and fixings
Stiff and lightweight
IPX7 water tightness

Details

Ø5-20mm cable
Ø5-16mm rod
6000kg max tension
Height = 490mm
Width = 50mm
Protrusion from cable = 120mm
Lightweight (2.5kg)
IPX7 waterproof

MAST-FLOAT SIMPLE TO USE FOR DINGHY MASTS

Spinlock enjoy good sales of our ranges to sailing schools and beach resorts, globally as well as to sailors in dinghy fleets. Responding to a market gap for a better product at a better price, we introduce a range of Dinghy Mast Floats.

Simple to use, Mast Floats are either tied to the head of the sail or hoisted in the mast track. Available in 5L and 20L buoyancy, Mast Float can be joined together to provide additional buoyancy.

Appealing to sailing schools, beach resorts and sailors in fleets still learning and developing skills, Mast Float provides buoyancy when capsized to reduce the risk of mast inversion.

FEATURES

Universal valve for pump inflation

Quick inflation and deflation

Simple to attach

Toggles for combining Mast Float together to increase buoyancy

Robust and hard wearing for long life

Highly visible fabric aids instructors and coaches

Mast Track Tag allows for added security when fitting large or double floats

Model	Description
DW-MF/5	Mast Float 5L
DW-MF/20	Mast Float 20L (includes tag)
DW-MF/TT	Mast Float Track Tag

NEW

27 LITRE

VENTURE KIT BAG RANGE

CARBON GREY & BLACK COLOUR-WAY

27 LITRE DECK BAG

- Backpack for day adventures
- 27 litre capacity
- Heavy duty, lightweight nylon ripstop fabrics
- Breathable mesh back panel
- Sternum strap
- Side mesh water bottle pocket
- External attachment straps
- External essentials zipped pocket
- Internal padded laptop sleeve
- Internal zipped pocket

NEW COLOUR

55 LITRE

55 LITRE DUFFLE BAG

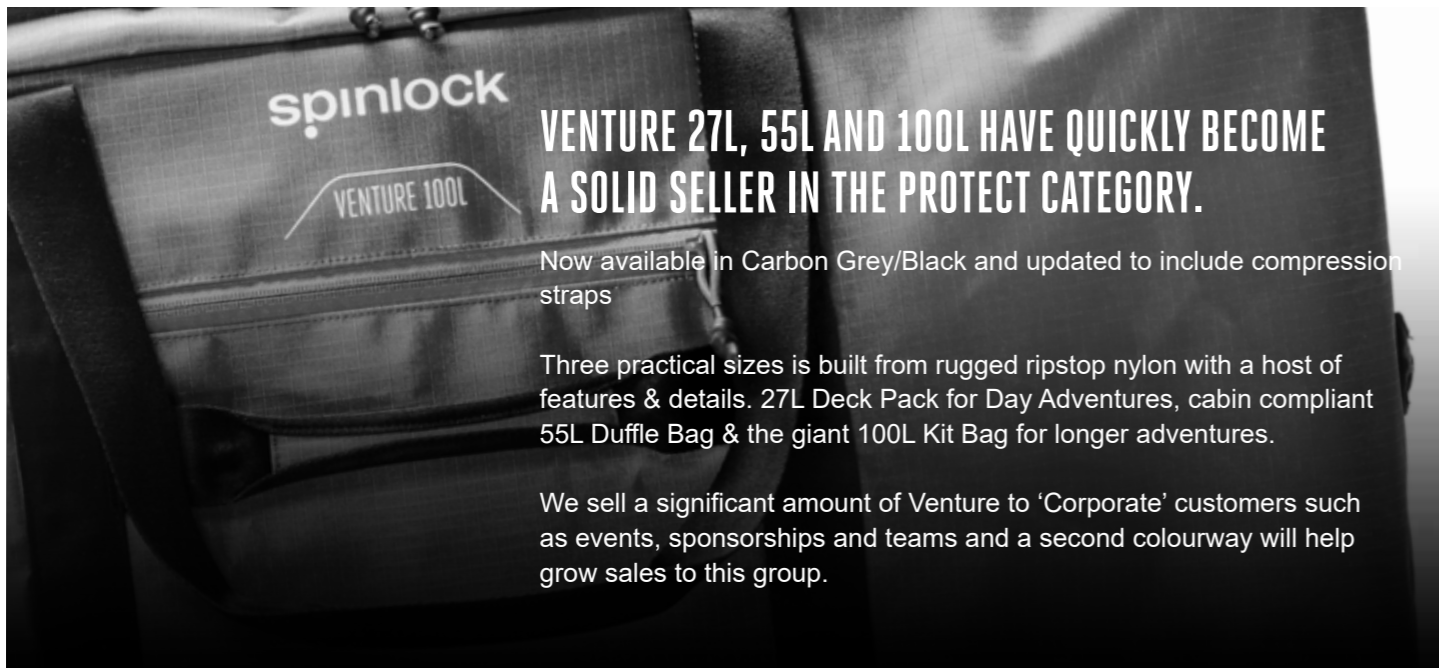

- Cabin size duffle bag
- 55 litre capacity
- Heavy duty lightweight nylon ripstop fabrics
- Removable backpack straps
- Compression straps for reducing size when packed
- Large carry handle on top
- Four side carry/grab handles
- External essentials zipped pocket
- Internal large zipped mesh pocket

100 LITRE KIT BAG

- Kit bag for longer adventures
- 100 litre capacity
- Heavy duty lightweight nylon ripstop fabrics
- Internal and external compression straps for reducing size when packed
- Large carry handle on top (removable)
- Side carry/grab handles
- External essentials zipped pocket

VENTURE 27L, 55L AND 100L HAVE QUICKLY BECOME A SOLID SELLER IN THE PROTECT CATEGORY.

Now available in Carbon Grey/Black and updated to include compression straps

Three practical sizes is built from rugged ripstop nylon with a host of features & details. 27L Deck Pack for Day Adventures, cabin compliant 55L Duffle Bag & the giant 100L Kit Bag for longer adventures.

We sell a significant amount of Venture to 'Corporate' customers such as events, sponsorships and teams and a second colourway will help grow sales to this group.

Model	Description	Dimensions
DW-PBS/27CG	Venture 27L Backpack, Carbon Grey & Black	460 H x 300 W x 150 D mm
DW-PBS/55CG	Venture 55L Duffle Bag, Carbon Grey & Black	250 H x 550 W x 350 D mm (cabin compliant, most airlines)
DW-PBS/100CG	Venture 100L Kit Bag, Carbon Grey & Black	750 H x 350 W x 380 D mm

EXPLORER 35 LITRE 100% WATERPROOF ROLL TOP BAG

Explorer 35L has quickly become a solid seller in the PROTECT Category. Now available in Black Graphite.

We sell a significant amount of Explorer to 'corporate' customers such as events, sponsorships and sailing teams.

Keep your gear dry and secure with the Spinlock Explorer 35 Litre Waterproof Roll Top Bag. Perfect for all your watersports adventures, no matter the conditions.

Rugged and reliable waterproof bag ensures your belongings stay completely dry, providing the ultimate protection against water, dust, and dirt.

100% waterproof roll top backpack

DECKVEST LITE+

275N BUOYANCY VERSION

Deckvest LITE+ now available in 275N model.

Updated bladder design gives all round enhanced in water performance

One size

170N or 275N buoyancy

Designed for the perfect fit - every time

Lightweight low profile

Durable honeycomb ripstop cover fabric

Automatic inflating lifejacket

Easy side donning

Deckvest LITE+ features an integrated deck safety harness with a soft loop safety line attachment point.

Single crotch strap with recessed clip reduces risk of snagging

Webbing end tidy

Muted highly reflective panel detail

Neoprene neck panel for added comfort

Attachment point for kill cord or VHF leash

Through Life Support (TLS) Registration extends product warranty to 5 years

TOTE BAGS REUSABLE DEADSTOCK BAGS

Reusable bags made from surplus rolls of our WING PFD fabric. These tote bags are designed with sustainability in mind. By repurposing leftover materials, we ensure nothing goes to waste while creating a product that is practical.

Model	Description
DW-PBT/BG	Tote Bag - Black Graphite
DW-PBT/CB	Tote Bag - Cobalt Blue

DURO+ 275N MANUAL ONLY HEAVY DUTY COMMERCIAL LIFEJACKET

DURO+ 275N our leading lifejacket harness for industrial marine is now available in a Manual Only version.

Model	Description
DW-LTDH/M275	275N Deckvest Duro+ Lifejacket Harness (Black) - UML Pro Sensor Elite Manual Firing Head

RIG-SENSE APP

- Enjoy smoother scrolling and improved data visibility with our improved interface
- Quickly edit rows, columns, and cells with a simple double tap
- Effortlessly share and import tuning guides using a straightforward .CSV file — compatible with AirDrop, Messenger, WhatsApp, Mail, OneDrive, and more.
- New LOOS Gauge Converter: Instantly convert your LOOS values to kilograms (KG)

LWS WIRELESS SENSE APP

The new LWS App has been rebuilt to work with the latest Load-Sense load cells

Design

- Complete redesign of UI - simplified and optimised with new clean look
- Full Screen mode for both numerical and graphical display
- Easy data sharing

Connectivity

- Device now connects through bonding
- Reduced latency for an instant load response
- Better security
- Improved data handling with no lost readings

Data

- Precise time stamps for easier post processing
- App continues logging in background with screen off
- Raw data capture rate increased to 80Hz to capture everything
- Intelligent data filtering packs data into 5Hz without losing fast high load impact

SERVICE CENTRE TRAINING

Following the success of our Ambassador Training Program we have now launched a set of Lifejacket Service Centre Training Courses. Delivered in the same clear and concise format, the Service Centre Training modules allow service centres & technicians to become trained and approved in the service of Spinlock Lifejackets and provide refresher training for existing service centres.

WHOLESALE UPDATES

Wholesale continues to grow with new features and additions. As well as links to all the resources available to you, new features show stock availability, statements, drop ship and cash payments.

API (CSV) PRODUCT FEED

It is likely that you and your largest retailers are working with API Product SKU feeds. We now supply a Spinlock API feed for system integration and it can be used as a CSV file as well. All SKU's are included and the API is of course live, fully up to to date by the minute.

Our API includes the following: Part Code, Description, EAN, COO, Weight, RRP, Web Product Descriptions, Web Product Features, Web Product Specifications, Web Images, Web Videos
