

Premium Airflow Products for All Weather

Ultimate 12 Volt DC Fan

Industry recognized and a long time favorite of sailors!

The model 747 Ultimate 12 Volt fan is recognized by *Practical Sailor* magazine as a "Best Buy" in the marine market.

It features a patented "finger-safe" blade that does not require a protective grill and has a shock-absorbing leading edge that flexes when it is stopped.

The resulting maximum airflow makes the 747 Ultimate the top choice for sailors heading to hot, humid climes.

Product Features

- Two speeds
- Comes with two mounting options (permanent or removeable suction cup)
- Long life, low power drawing motor
- Adjustable, tilting head
- Available in black or white

Boat-Owner Benefits:

- Maximum airflow
- Easy to clean
- Easy to install
- Quiet, dependable operation
- Direct air in any direction
- Match any boat interior
- Fan stays in place in rough seas

Specifications:

Bora

12 & 24 Volt DC Fan

The quietest and most powerful marine fan in its class!

The model 748 Bora 12 & 24 Volt fan is designed to deliver the features needed to solve any on-board airflow challenge.

The fan is ideal for clearing a bridge windshield, venting a galley or providing cool comfort in the sleeping berth. This versatility has made the Bora our most popular selling fan.

Product Features:

- 3-speed touch control
- Long-life 5000+ motor
- Compact design
- Newly designed high efficiency blade
- Fully guarded on front and back
- Locking cam mount
- Low power draw
- Stylish design available in black or white finish
- Made in Canada

Boat-Owner Benefits:

- Maximum airflow with minimum noise
- Match fan speed to application
- Greater boater safety
- Easy to install
- Matches any boat interior
- Fan stays in place in rough seas
- Battery friendly
- Mounts sideways, upright or downwards

Sirocco

12 & 24 Volt DC Fan

The best cabin fan available in the marine market!

The model 807 Sirocco 12 & 24 Volt fan features a unique gimbaled design that allows airflow to be directed in any direction of the cabin - 360°. The Sirocco can also be folded flat and out of the way against the bulkhead when not in use.

With its multiple speeds, timer settings and quiet operation there is no other marine fan that can match the Sirocco's performance. It truly is the premium choice for comfortable cabins and salons.

Product Features:

- Unique gimbaled design
- 3-speed push button control
- Ultra quiet, long-life motor
- 4 preset timer settings
- Timer indicator lights and automatic dimming
- Draws less than 0.4 amps at high speed
- Stylish design available in a black or white finish
- Two mounting options; self adhesive or permanent fixture

Boat-Owner Benefits:

- Allows full 360° rotation for limitless positioning
- Quiet, comfortable cabins
- Efficient use of space
- Battery friendly
- Match any boat interior
- Easy to install

Kona

12 & 24 Volt DC Fan

The only weatherproof fan on the market!

The model 817 Kona 12 and 24 Volt fan is designed to hold up in the most demanding marine conditions. Featuring a watertight motor and constructed of extruded aluminum, UV stabilized plastic and stainless fasteners the Kona is ideal for environments such as the wheel-house dash or an exposed bridge or cockpit where splash and spray would spell disaster for other fans.

The 3 speed motor allows a multitude of settings for whatever on-board task it's required.

The standard lighter plug adapter and suction cup mount option allow this fan to be moved to wherever it is needed on the boat - above or below the deck. The bracket mount allows for a more permanent installation.

Product Features:

- IP55 rated against dust and spray
- Locking base
- Two installation options - permanent mount or cam lock suction cup
- Low power draw
- 3 speed motor
- Lighter plug adapter included
- Black or white finish
-  Made in Canada

Boat-Owner Benefits:

- Can be left in rain or withstand boat spray
- Easy to Install
- Rugged
- Battery-friendly
- Fan stays in place in rough seas
- Corrosion resistant

Specifications:

Colors Available:	Black or White

MiniMax Deluxe Battery Fan

Energy-efficient, compact & powerful!

The model 737 MiniMax fan is a favorite for hurricane preparedness because of its powerful airflow and efficient battery use.

Ideal for boaters looking for added circulation without having to wire into their 12 volt system.

Product Features

- 4 speeds
- Anti-slip rubber feet
- Auto shut-off after 8 hours or when the unit is folded shut
- Long life motor
- AC adapter ready
- Available in two color combinations

Boat-Owner Benefits:

- Match air speed to each different use
- 300 hours use from 4 "D" cell batteries
- Economical circulation
- Sleeping comfort
- Powerful but quiet airflow
- Battery efficient
- Use on or off the boat

Specifications:

Colors Available:	White or Black
Product Size:	5.25" W x 5.25" H x 2.5" D

EZ PowerPak 12 Volt Energy Kit

A simple idea that every boater can use!

The model 902 EZ PowerPak provides portable 12 Volt power, when and where it is needed. Just load it with 8 "D" cell batteries and store it until it's needed. The EZ PowerPak can be used to power a multitude of accessories under 3 amps without depending on the boat's main power system - fans, portable lights, kid's video games or a fishfinder. In an emergency you can use it to power up a GPS, VHF or charge a cell phone.

The comfortable shoulder strap makes it truly portable.

Product Features:

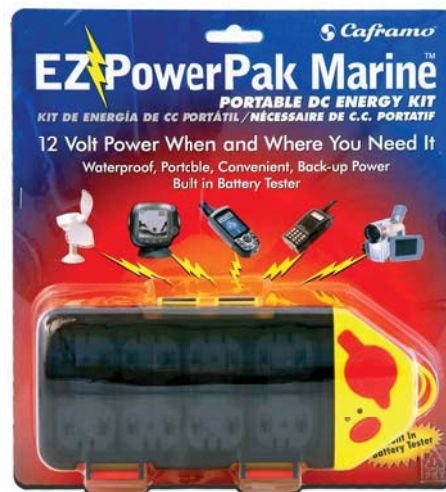

- Waterproof
- Built in battery tester shows when voltage is above 10 Volt, between 8 and 10 Volt and below 8 Volt
- Standard lighter plug compatible
- Comfortable shoulder strap
- Fused at 3 amps

Boat-Owner Benefits:

- Dependable power available when you need it
- Emergency power source
- No current draw on main boat battery
- 12 Volt power you can take ashore

Specifications:

Colors Available:	Yellow
Product Size:	3.75" W x 8" H x 3.5" D
Single Size:	10" W x 10.5" H x 3.5" D
Master Carton Quantity:	6
Warranty:	1 Year
Maximum Current Draw	3 amps
Retail Package:	Clam Shell
UPC Code:	062509902007

In-Store Fan Display

The Caframo In-Store Display is designed to give the boater an opportunity to operate and compare the unique features on all of Caframo's various cabin fans. By allowing consumers to feel how well the fans work they are much more likely to purchase a product for installation on their boat or yacht.

These displays are available to Caframo Distributors for placement in their highest volume retail stores.

Product Features:

- Tough, attractive acrylic base
- Modular design holds 5 fans
- Fastens to standard retail shelving
- 12 volt power source included (uses 8 'D' cell batteries)
- 20 second timer for each fan

Retailer Benefits:

- Increased fan sales
- Consumer satisfaction with product before purchase
- No plug-in power required
- Reduced returns
- Easy to use
- Maximum battery life
- Easy to change fans as models change or selection offered changes

Specifications:

"Bringing air into and out of a boat is key to comfort aboard. In our mind ... the Caframo fans are superior."

www.Practical-Sailor.com

About Caframo

Tony Solecki, President

Caframo is a privately owned Canadian manufacturing company founded in 1955. We pride ourselves in being an industry leader in specialty fan products for North America and International markets. Our fans are sought after in the US, Europe, Australia and the Caribbean.

Our Marine line of products has been developed to improve boaters' personal environment and allow them to "Cruise in Comfort". Our products can greatly increase the enjoyment of consumers' boating investment.

The Marine line has also been developed to provide retailers with products that will generate sales revenue throughout the year; fans for hot humid months and heaters and warm air circulators for the cool months.

Our customers include independent marinas who have sought out our products, marine distributors, and some of the largest retailers in North America.

Company processes include: market research, customer feedback, product design, parts manufacturing, assembly, packaging, quality testing and functional testing. Parts are sourced internationally as well as locally. Caframo products are built and approved to appropriate standards such as CE, UL and CSA.

We are committed to high product quality and excellent customer service and look forward to working with you.

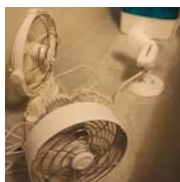

Designed, Tested, and Built for Demanding Marine Use

Finger-Safe Blades

Many of our fans feature our patented "Finger-Safe Blade" which does not require a protective grill. The blade has a shock absorbing leading

edge that flexes when it is stopped. These blades are able to push more air quietly.

Salt Water Test

Our salt water test is conducted in a 2 cubic meter enclosed chamber. A salt water solution is then ultrasonically introduced into the chamber to simulate

seaside conditions. The fans are then operated and monitored within the chamber 24/7.

Slam Test

In order to simulate the effect of pounding waves on our fans they are subjected to a slam test. The fan is fastened to a vertical rod and then an elec-

tric motor causes the fan to drop 6" to a hard-fast stop on the concrete floor over and over again.

First Choice for Boat Manufacturers

Maine Catamarans

Endeavour Cat

N.A. Sleekcraft

Aside from the many letters we receive from happy customers, one of the greatest testimonials to the quality of Caframo Marine Fans is that a number of high quality boat manufacturers from around the world spec them as original equipment on their yachts.
